We've developed 900+ custom addons & 500+ XenForo projects successfully.

Quick Theme Switcher

Getting Started with [FC] Quick Theme Switcher

Thank you for your interest in [FC] Quick Theme Switcher. Here is a complete documentation about installing & configuring ThemeSwitcher addon with your forums. If you need further information regarding addon options setup or extra pair of hands, please feel free to get in touch.

We always love to get something extra without paying additional cost. So, [FC] Quick ThemeSwitcher is available for your forums to give the ability to Switch Themes from Light to Dark or Dark to Light one.

Hold On.....

You will get something extra by installing [FC] ThemeSwitcher addon. Your visitors can switch from one theme style to another that will give your forums a brand new look in 2021. Furthermore, You can use your beloved font-awesome icons on the top header that will attract users to get new forums as long as you can set up the timer in the admin panel that will switch the theme for your users automatically.

[FC] ThemeSwitcher installation and configurations is a piece of cake, quick and easy to customize. Themeswitcher is suitable for any forum along with many different abilities that allow you to switch out the theme easily.

Installing [FC] Quick Theme Switcher

For manual installation, please follow below listed instructions

Manual Installation

1. You first need to download the add-on from this link. You should provide some information that will be required before downloading. Once you are done with the downloading procedure, save the .zip file in your PC.
2. Subsequently, you have to extract the files.
3. After that, you will need to upload the contents inside the upload folder into your root XenForo directory.
4. After you have uploaded the files you will need to navigate to the Add-ons section within your XenForo admin panel. Here you will find it under the “installable addons” list. Just click to Install!
5. Congratulations! You have officially installed the [FC] ThemeSwitcher add-on and enjoy new features.

5. Congratulations! You have officially installed the ThemeSwitcher add-on on your site. If you require any technical assistance or would prefer us to install the add-on for you, you can contact us anytime.

Options

Before Enjoying ThemeSwitcher Addon, You Must Setup Quick Options!

Various settings available in ThemeSwitcher.

- **Choose Primary Default Theme** - You must set up your default theme first by using Xenforo default option.

To navigate to Options, go to Admin Panel → Appearance → Styles → Select Custom Style

- **Choose Second Theme** - Select the second theme style from the dropdown that you would like to switch.

If you won't select the alternate theme, [FC] Theme Switcher won't be enabled.

To navigate to Options, go to Admin Panel → Setup → Options → Quick Theme Switcher

- **Setup Theme Icons** - Use your preferred font awesome Icon to give an identity to your themes. You shouldn't need to add the html to set up the icon. Simply, just add the icon name, this feature will work. For instance, "sun" "moon" as whatever you love.....
- **Icon Switch Position** - Icon will be visible for the users to switch between different themes just next to the main menu. Check the attached video for proper reference:
